### CITY OF COLLEGE PARK WINTER ALERT SNOW & ICE REMOVAL

Property owners, occupants and merchants are reminded of the City requirement to remove accumulated snow and ice from all walkways, driveways, parking lots and other areas used by pedestrians or automobiles. The owner or occupant of any property that abuts the sidewalk must clean public sidewalks of ice, sleet and snow for their full width. It is required that snow and ice be removed within the first eight (8) hours of daylight after snowfall stops. These requirements are listed under City Code Sections 157-6(B)(10) and 141-5(A).

Though City code enforcement officers may not cite all such violations immediately after a storm, failure to comply with this regulation in a timely manner could be used as evidence by anyone injured in a fall on or adjacent to your property if you are sued for such injuries.

Be prepared! Keep snow shovels and salt ready for the next storm, and plan to have help available if necessary to make your walkway safe as soon as the snow stops falling.

### CURBSIDE LEAF COLLECTION IS UNDERWAY

College Park will continue curbside leaf collection until January 2014 with the leaf vacuums. Look for the posted signs to know when curbside leaf collection will occur in your neighborhood. Collection schedules are tentative; please refer to the City website (<http://www.collegeparkmd.gov>) or contact Public Works at 240-487-3590 for the most updated information. Weather conditions may affect collection (rain may delay collection; dry conditions may generate dust). We apologize for any inconvenience.

### LEAF COLLECTION PROCEDURES

#### DO:

- Rake leaves, grass, flowers, and light clippings to the curb (but not in the street) - you do not need to bag these items
- Pile leaves away from cars and storm drains – piles blocked by obstacles will not be collected
- Watch for the posted signs in your neighborhood to know when to rake your leaves to the curb. Visit the website for updates to the collection schedule.

#### DO NOT:

- Include brush, branches, sticks, bamboo, vines, rocks, or debris (litter) in your leaf piles. These items may damage the leaf vacuums and delay collection.
- Use plastic bags for leaves and clippings. You also do not need to use paper bags or reusable containers during curbside leaf vacuum collection.
- Block storm drains or fire hydrants, as this can lead to storm water and emergency access problems.
- Pile leaves in the street. Leaves in the street can create a slipping hazard, parking problems, and clog storm drains.
